Introduction

An information security professional focused on the field of Information Security Management, including governance, risk and compliance (GRC). Currently employed in Amsterdam as a Senior Consultant within EY's CertifyPoint team, following promotion from Consultant in October 2021. Gained significant experience leading audits and assessments of information security management (primarily focused on ISO 27001) for global market-leading technology companies. Previously worked at BT in the UK as part of BT's Cyber Security graduate program.

Experience

EY / CertifyPoint

Senior Consultant
October 2021 - Present

Consultant
October 2019 - September 2021

Amsterdam, Netherlands

- A core member of EY's global CertifyPoint team, EY's only accredited ISO certification body.
- Lead the end-to-end execution of external certification audits for a range of market-leading, multinational clients, primarily cloud service providers.
- Audited clients against a range of industry standards - including ISO 27001, ISO 27017 and ISO 27018.
- Assessed clients' information security risk management processes in detail.
- Coordinated multiple stakeholders across a range of geographies and time zones.
- Developed a strong understanding of all aspects of information security.
- Gained significant exposure to best security practices from working closely with industry leaders.

BT Global

Security Graduate
September 2018 - September 2019

Ipswich, UK

- Developed and executed an internal audit programme based on the NIST Cybersecurity Framework.
- Developed a scoring system to provide insightful analysis of audit results.
